

Learn on Demand Systems Named to Third Training Industry Watch List for 2020

This is the company's third Watch List recognition since May, complementing recent listings in the Online Learning Library and Training Outsourcing categories.

NEW PORT RICHEY, FLORIDA, UNITED STATES, November 20, 2020 /EINPresswire.com/ -- Learn on Demand Systems has been named a 2020 IT Training Watch List Company by Training Industry. This is the company's third Watch List recognition since May 2020, complementing recent listings in the [Online Learning Library](#) and [Training Outsourcing](#) categories.

The 2020 IT Training Watch List is intended to better inform professionals about the best and most innovative providers of training services and technologies.

“We are honored to be named to a third Training Industry Watch List since last May,” said Corey Hynes, CEO of Learn on Demand Systems. “The IT Training category is important to us as we continue to build our library of Challenge Labs, which demonstrate how important challenge-based, scored labs are to skills development.”

“

The IT Training category is important to us as we continue to build our library of Challenge Labs, which demonstrate how important challenge-based, scored labs are to skills development.”

Corey Hynes, CEO of Learn on Demand Systems

“The 2020 IT Training Watch List Companies feature unique and emerging IT training providers that offer a breadth of popular courses on topics such as data science, cloud applications and programming,” said Danielle Draewell, Market Research Analyst at Training Industry, Inc. “These companies continue to expand their portfolio with in-depth content to ensure learners are fully equipped with

the knowledge they need to be successful.”

Selection of this year's Top IT Training Companies was based on the following criteria: Breadth and quality of IT training content and courses, leadership and innovation in IT training, company size and growth potential and strength of clients and geographic reach.

This recognition is particularly timely as Learn on Demand Systems is poised to surpass [650 Challenge Labs](#) in its content library by the end of 2020.
