

# Michigan US Navy Veterans Lung Cancer Advocate Recommends the Lawyers at Karst von Oiste for a Navy Veteran who Has Lung Cancer-and Who Had Asbestos Exposure in the Navy-Compensation May Exceed \$100,000

DETROIT , MICHIGAN , USA, January 15, 2021 /EINPresswire.com/ -- The Michigan US Navy Veterans Lung Cancer Advocate says, "We recommend the lawyers at the law firm of Karst von Oiste for a Navy Veteran who has recently been diagnosed with lung cancer-and who decades ago had significant exposure to asbestos on a navy ship, submarine or at a shipyard. The financial compensation for a person like this may exceed \$100,000 for a Veteran who served for three or four years. For a career Navy Veteran like this the compensation might be in the hundreds of thousands of dollars and the claim does not involve suing the navy as the lawyers at Karst von Oiste are always happy to explain at 800-714-0303.

"The Navy Veteran with lung cancer we are trying to identify is over 60 years old, he served in the 1960s or 1970s and his asbestos exposure took place on the ship, submarine or shipyard he was assigned to. Most people do not associate shipyards with Navy Veterans-but the two are directly-related. Many crew members of a navy ship or submarine are required to stay on their ship or submarine at a shipyard to assist with repairs. If this sounds like your husband or dad, please call the lawyers at Karst von Oiste at 800-714-0303. You have nothing to lose-and the

consultation is no obligation.”

High risk work groups for exposure to asbestos in Michigan include US Navy Veterans, auto plant workers, workers at one of Michigan’s dozens of power plants, manufacturing workers, public utility workers, plumbers, welders, electricians, millwrights, auto mechanics, machinists, or construction workers. Typically, these

types of workers had significant exposure to asbestos during the 1950’s, 1960’s, 1970’s, or 1980’s.
