

LEFF Construction Awarded National Association of the Remodeling Industry (NARI) "Remmie" for Wine Country Home Project

"Judges Choice" Prize Also Awarded to the "Whole-House Remodel Over \$1M" Vacation Home Located in Kenwood, CA

SEBASTOPOL, CA, UNITED STATES, December 1, 2020 /EINPresswire.com/ -- The National Association of the Remodeling Industry (NARI) awarded LEFF Construction Design Build in Sebastopol, CA a 2020 "Remmie" Award in the "Entire House Over \$1,000,000" category in its' annual awards ceremony (held online) on November 16, 2020.

The winning project, a vacation home in the wine country hillside of Kenwood, CA, was built in 1980 and had decades of deferred maintenance.

The clients' first intention when purchasing the property was to demolish, then rebuild, the structure. Instead, the LEFF Team designed and built an extensive interior and exterior whole-home remodel in two phases, creating a dramatic transformation of a stone cottage to a showstopping, casual-luxury retreat. The clients' family shelters together in their new, wine country getaway, and they also rent the space to vacationing guests. [See the stunning BEFORE & AFTER images here.](#)

Dave Leff, CEO/President of LEFF, said: "I'm really proud of the talented and hard-working LEFF team. They consistently designs and builds truly beautiful remodeling projects for our clients. With the many challenges our company and our clients faced this year, it's gratifying to win an award despite many obstacles and delays caused by the pandemic. Our clients are our close partners in our design-build process; their patience and cooperation this year directly contributed to the award-winning results of this project. Congratulations to the entire LEFF staff and team for delivering another superb product and client experience."

NARI "Remmie" Winning Whole House Remodel Project by LEFF Construction Design Build, Kenwood, CA

About LEFF Construction Design Build
Founded in 1978 in Sebastopol,
California, LEFF designs and builds
residential remodeling and new home
construction projects in Sonoma
County, CA. The LEFF Design Build
process helps define its core mission:
to make every project a superior client
experience. LEFF's approach makes
their entire team of architects,
designers, estimators, project
managers, and field crew accountable
from beginning to the end of the
project. Communication and
accountability between all parties is
transparent and consistent. The result:
a custom project delivered on time and
on budget, and very happy clients. [See our website here: https://LeffConstruction.com](https://LeffConstruction.com)
