

Franciscan Communities Receive High Rankings in Five-Star Quality Rating

LEMONT, IL, UNITED STATES, November 25, 2020 /EINPresswire.com/ -- Six [Franciscan Communities](#) received excellent marks in the latest Five-Star Quality Rating System from the Centers for Medicare & Medicaid Services (CMS).

Each year, CMS updates its Nursing Home Compare Website that ranks the best nursing homes and helps prospective residents and their families determine which community is the best fit for them.

The ratings take several factors into consideration, including health inspections, staffing and quality measures. Nursing homes with four-and-five-star ratings are considered high-performing and above average compared to other communities in their state.

These ratings show us that what we are doing has worked, and we are always striving to find ways we can improve the quality of care we provide.
