

Hair Restoration Services Market Size Will Grow At 19.6% CAGR To Exceed \$12.12 Billion By 2026

Hair restoration is a surgical procedure used to treat baldness or hair loss (alopecia).

PORTLAND, UNITED STATES, UNITED STATES, November 25, 2020

/EINPresswire.com/ -- According to a report published by Allied Market Research, the global [hair restoration services market](#) fostered \$8.45 billion in 2018 and is projected to garner \$12.12 billion by 2026, growing at a CAGR of 19.6% from 2019 to 2026. The report offers a detailed analysis of the key segments, top investment pockets, changing dynamics, market size & estimations, and competitive scenario.

Hair Restoration Services Market

Surge in number of bald populations, and rise in number of beauty-conscious customers are the major factors that drive the growth of the global hair restoration services market. Furthermore, availability of efficient services supplements the market growth. On the other hand, forgery in services and lower penetration in untapped market hamper the market growth. However, premiumization trend provides immense opportunity and rise in number of millennial populations provide lucrative opportunities for the market.
