Michigan's factory-automation distributor, Industrial Control, is now one of only two distributors of Epson Robots for the state of Michigan.

ZEELAND, MICHIGAN, UNITED STATES, December 1, 2020 /EINPresswire.com/ -- ZEELAND, MI – December 1, 2020 – Michigan's factory-automation distributor, [Industrial Control](#), is now one of only two distributors of [Epson Robots](#) for the state of Michigan.

Epson Robots is a global leader in PC controlled precision factory automation, with over 100,000 units sold worldwide and a product line of hundreds of models of easy to use SCARA, Cartesian and 6-Axis robots based on a common PC based platform. Building on a 35-year heritage, Epson Robots today delivers robots for precision assembly and material handling applications in the aerospace, appliance, automotive, biotechnology, consumer product, electronics, food processing, medical device, pharmaceutical, plastics, semiconductor, and telecommunication industries.

According to Fortune Business Insights, The global industrial robots market size stood at \$21.83 billion in 2019 and is projected to reach \$66.48 billion by 2027, exhibiting a CAGR of 15.1% during the forecasted period. Nearly 60% of that will derive from Articulated and Scara robots. Both of which Industrial Control distributes.

Now distributing Epson Robots as well as, naturally paired products such as, Asyrl Feeders and Shunk Grippers, Industrial Control has the capabilities to meet nearly any manufacturing challenge.
