PUNE, MAHARASTRA, INDIA, December 1, 2020 /EINPresswire.com/ -- Search and Rescue (SAR) Equipment Market:

## Executive Summary

Global Search and Rescue (SAR) Equipment Market is valued approximately USD 118.3 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 2.03 % over the forecast period 2020-2027. Equipment for Search and Rescue (SAR) is the equipment used to search and rescue people in trouble or imminent risk. There are various SAR equipment segments, ranging from logistics to medical to planning equipment, etc. Some of the SAR devices include heavy-duty torchlight, stretcher, SAR belt, radio, machine for life detector, first aid kit, harness, drone quest, helicopter rescue, ambulance, etc. The market for search and rescue equipment is expected to promise strong growth due to a rise in demand for SAR combat equipment in the automotive and process industries in recent years. The growth in the search and rescue equipment market is expected to drive growing demand from the application, including battle and urban. The market is driven by Growing focus on human security, increasing terrorism and insurgency. As the manufacture facility operating in these sectors are more prone to fire incidences and facilities due to their routine functional operation resulting into propelling the demand and need for the market. For instance, According to the International Energy Agency, in 2018 , global production of natural gas accounted for approximately 3958 billion cubic metres, which increased to approximately 4088 billion cubic metres in 2019. However, burden on budgets of government would restrain the market growth.
