

## Geophysical Services Market 2020 Growth, Size, Share, Trends Analysis And Forecast To 2026

Wiseguyreports.Com Adds "Geophysical Services -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2026" To Its Research Database

PUNE, MAHARASHTRA, INDIA, December 3, 2020 /EINPresswire.com/ -- <u>Geophysical Services</u> <u>Industry</u>

Description

Wiseguyreports.Com Adds "Geophysical Services -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2025" To Its Research Database

Global Geophysical Services market is accounted for \$2150.05 million in 2017 and is expected to reach \$3571.25 million by 2026 growing at a CAGR of 5.8% during the forecast period. Growing investments in mineral & mining industries, rising instability in crude oil prices and increasing usage of aerial-based geophysical surveys are the major factors driving the market growth. However, the downturn in the oil & gas industry is restraining market growth.

Geophysical survey is essential in obtaining magnetic and gravitational fields of the Earth's interior and topography. Geophysical surveys have many applications in geology, archaeology, mineral and energy exploration, oceanography, and engineering.

Based on Technology, the Seismic segment accounted for considerable market share during the forecast period due to wide usage in the oil & gas industry. Seismic services help the oil and gas companies to make critical exploration and reservoir decisions. Seismic services facilitate oil companies to locate reservoirs and refine oil and natural gas fields. By geography, North America held the largest market share during the forecast period due to the rise in mineral exploration activities and a high number of geophysical survey activities in this region.

Some of the key players profiled in the Geophysical Services Market include TGS, Spectrum Geophysics, Sea Geo Surveys Pvt Ltd, Polaris Seismic International, Phoenix Geophysics, ION

Geophysical Corporation, Intertek Group plc, GEOTECH, Geophysical Survey Systems Inc., Fugro, EON Geosciences, Dawson Geophysical Inc., Compagnie Générale de Géophysique and BTW Company.

Types Covered:

- Land-based Survey
- Aerial-based Survey

Services Covered:

- Data Processing
- Data Interpretation
- Data Acquisition

Technologies Covered:

- Seismic
- Resistivity
- Magnetic
- Light Detection and Ranging (LIDAR)
- Hyperspectral
- Ground Penetrating
- Gravity
- Gradiometry
- Electromagnetics
- Other Technologies

End Users Covered:

- Agriculture
- Environment
- Minerals & Mining
- Oil & Gas
- Water Exploration
- Other End Users

Regions Covered:

- North America
- Europe
- Asia Pacific
- South America
- Middle East & Africa

What our report offers:

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants

- Market forecasts for a minimum of 9 years of all the mentioned segments, sub-segments, and the regional markets

- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

## Table of Content

1 Executive Summary

2 Preface

- 3 Market Trend Analysis
- 4 Porters Five Force Analysis
- 5 Global Geophysical Services Market, By Type
- 6 Global Geophysical Services Market, By Technology
- 7 Global Geophysical Services Market, By End User
- 8 Global Geophysical Services Market, By Geography
- 9 Key Developments
- 10 Company Profiling
