-- According to the report published by Allied Market Research, Saudi Arabia [aluminum market](#) generated \$1.7 billion in 2018, and is expected to garner \$2.4 billion by 2026, growing at a CAGR of 6.8% from 2019 to 2026. The report offers a detailed analysis of changing market trends, market size & estimations, top investment pockets, key segments, and business performance.

Development of the transport industry, technological developments, and supportive government regulations drive the growth of the Saudi Arabia aluminum market. However, developing China and Russia aluminum industry hinder the market growth. On the other hand, surge in focus on recycling and reusing aluminum scrap create new opportunities in the next few years.
