

SearchInform Brings to the Fore Its Internal Threat Mitigation Solution as a Service

MOSCOW, RUSSIAN FEDERATION, December 6, 2020 /EINPresswire.com/ -- [SearchInform](#) offers [MSSP](#) option allowing companies to launch in-depth employee [monitoring](#) fast and easy.

SearchInform has elaborated the strategy for tackling both budget allocation or cuts amid lockdown and investment into ensuring safe performance of the remote team.

In 2020 due to the mandatory isolation and aggravating crisis, many small and medium businesses faced financial issues, whereas relocation outside the office caused security problems. To help businesses, SearchInform has come up with an employee monitoring solution as a service. Companies will be able to supervise remote workers without unreasonable spending.

A customer will be helped with monitoring implementation, offered deployment in the cloud, provided with instruments and an experienced specialist. A company will benefit from hundreds of preset policies based on the expertise derived from many years of working with customers in various industries. The policies can be tailored to the client's demand. Businesses save their time, money and receive complete reports on violations in detail ensuring the quickest and easiest way to launch and implement the employee monitoring program.

SearchInform MSSP facilitates detection and prevention of fraud, malicious data breaches and leakage due to negligence, sabotage, blackmail, disregard and malpractice, identify disloyal
