minded foodie. aMYLK's Founder, [Amy Colville](#), started aMYLK after years of struggle with food sensitivities caused by stress-related auto immune issues:

"I created aMYLK as a pure plant-based dairy alternative to help inspire greater clarity, vitality, energy and joy for myself, my family and my community," states Amy Colville. "I couldn't find a nutrient dense, gum free alternative mylk product in the marketplace that actually tasted good, or didn't upset my stomach, so I decided to make my own."

Amy Colville continues, "I am incredibly excited to extend our reach beyond the Portland area so that we can meet the needs of a larger customer base. My goal is to make the best plant-based mylk in the world. I hope aMYLK will inspire you to live your healthiest, most joyful life. aMYLK is the purest plant-based dairy alternative in the marketplace. I never add any gums, emulsifiers, oils, or synthetic ingredients and each of my glass bottled mylks are made with at least 25% nuts compared to the 2-5% typically found in other products."
