Global Airport Moving Walkway System Market 2020-2027: Business Development Strategies and Product Experts Ideas by Industry Giants

PORTLAND, OREGON, UNITED STATES, December 9, 2020 /EINPresswire.com/
-- Global <u>airport moving walkway</u>
<u>system market</u> size accounted for
\$4,155.6 million in 2019 and is
expected to reach \$5,135.6 million by
2027, registering a CAGR of 3.0% from
2020 to 2027. In 2019, Asia-Pacific
dominated the global airport moving
walkway system market, in terms of

revenue, accounting about 40.5% share of the global airport moving walkway system industry, followed by North America, Europe, and LAMEA.

In the last couple of decades there has been a rise in number of air travelers due to increase in tourism and preference of travelling by air over road and rail by the middle class population. Thus, rise in number of travelers has led to construction new airport and expand or renovate the existing airports. For instance, as per the data published by The World Bank Group there were over 70.2 million passengers in France who used airline to travel in 2018 and the number is expected to considerably increase till 2027. Thus, France government has decided to invest around \$270 million and increase the capacity of the Marseille airport by 40% by 2023. Further, China has planned to construct 216 new airports by 2035 to meet the growing demands for air travel.

Thus rise in new construction, expansion, and renovation of airport make way for new installation, modernization and maintenance of airport moving walkway systems. For instance, in February 2019 it was announced that installation of moving walkway system will be done from

terminal 1 to the parking lot of Bengaluru Airport in India. Also, Otis has signed a contract with London Gatwick Airport in February 2019 for the maintenance of 340 units of elevators, escalators and moving walkways for the period of five years. This will help in the airport moving walkway system market growth in the forecast period.

The new installation segment secured the <u>highest share</u> of over 40% in the global market in 2019 and maintenance segment is expected to grow at a CAGR of over 3.5% during the forecast period. In terms of type, the pallet type segment is expected to contribute the highest airport moving walkway system market share in the coming years, as rise in the construction of new airports and renovation of old airports is estimated to fuel its growth.

The inclined segment is expected to grow at the highest CAGR during the forecast period. Inclined walkways make it easy for the commuters to carry their heavy luggage across the two floors if inclined walkways are installed. Region wise, the airport moving walkway system market analysis is conducted across North America (the U.S., Canada, and Mexico), Europe (Germany, France, the UK, Italy and rest of Europe), Asia-Pacific (China, Japan, South Korea, India and rest of Asia-Pacific), and LAMEA (Latin America, the Middle East, and Africa).
