

FedLearn Partners with QuantHub to Offer Data Talent Assessment Solution to FedGov/GovCon

QuantHub's data talent assessment solution helps FedLearn align its learning solutions in its growing AI/data science course catalog to data talent skill gaps.

BIRMINGHAM, AL, UNITED STATES,
December 10, 2020 /

EINPresswire.com/ -- FedLearn, the first-to-market online learning platform specialized and contextualized for federal government departments and agencies and government contractors, is joining forces with [QuantHub](#) to provide data talent assessment solutions.

QuantHub's data talent assessment solution will allow FedLearn to align its learning solutions in its growing AI/data science course catalog to [data talent skill gaps](#). Thus, allowing data talent in the FedGov and GovCon to take the exact courses they need to close those skill gaps and grow their careers.

"FedLearn is honored to team with QuantHub to provide its data talent assessment solution to our customers involved in the growing artificial intelligence and data science efforts across FedGov and GovCon," said J. Keith Dunbar, FedLearn founder and chief executive officer, "We look forward to helping our customers understand their data talent skill gaps that provides their workforce with insights to continue to grow their data skills and manage their careers."

"We are thrilled to partner with FedLearn. Developing data skills across the workforce is critical to the success of all organizations in the future of work," said QuantHub CEO, Matt Cowell. "We look forward to working in partnership with FedLearn to assess data skill gaps and provide targeted learning recommendations for their customers."
