

# Jatheon Technologies Presents Government Electronic Records Compliance Checklist

*Jatheon Technologies, an enterprise information archiving company, has compiled a checklist for electronic record management for US government organizations.*

TORONTO, ONTARIO, CANADA, December 15, 2020 /EINPresswire.com/ -- Jatheon Technologies, a

“

Having worked closely with the government organizations' IT and legal teams, we recognized the need to provide a comprehensive guide that can assist the IT, compliance, and legal departments.”

*Ivana Nikolic*

tech company specializing in enterprise information archiving, compliance and ediscovery and headquartered in Toronto, has compiled a checklist for electronic record management for government organizations in the United States.

The Government Compliance Checklist for Records Management and Archiving for 2021 can be used by compliance managers and staff in federal and state agencies across the US to check the key compliance requirements for NARA, Freedom of Information Act and Federal Rules of Civil Procedure. The checklist is free and has been compiled consulting relevant legislation, opinion

and research by industry experts.

Ivana Nikolic, Jatheon's Marketing Director, explained the need for creating such a resource: “Jatheon provides email, social media and [mobile archiving software](#) to regulated industries across the US, and government organizations, including counties, cities, towns and other public agencies are among our most valued customers. Having worked closely with their IT and legal teams for over fifteen years, we recognized the need to provide a comprehensive guide that can be used on an as-needed basis and that can assist the IT, compliance and legal departments when choosing technology and checking their compliance status.”

The checklist is divided into chapters, each outlining the requirements of a particular law and listing the specific issues that need to be addressed in order for recordkeeping to be aligned with the given requirements. The checklist also contains the chapter that federal and state agencies can consult when evaluating [archiving software](#), as well as the key requirements in terms of capturing, storing, monitoring and retrieving electronic records for compliance and ediscovery purposes. The checklist is available on Jatheon's website and can be downloaded in PDF free of

charge.

## ABOUT JATHEON

Jatheon Technologies Inc. was founded in 2004 to empower companies in their efforts to ensure email compliance, facilitate eDiscovery, improve email management and alleviate storage issues.

Today, Jatheon is a leader in the archiving industry, with 6+ billion processed messages and unique on-premise and cloud archiving solutions. The company continues to raise the bar throughout the industry with the latest enterprise-grade cCore archiving appliances, a powerful archiving, retrieval and dynamic monitoring software and best-in class tech support, Jatheon Care. In 2017, Jatheon

designed Jatheon CTRL – a social media, mobile and IM archiving add-on that smoothly integrates with the company's proprietary email archiving software. In 2018, the company launched Jatheon Cloud – the next-generation cloud email archiving solution best suitable for small and medium-sized organizations. In 2019, Jatheon launched Jatheon Archive, an email archiving and management mobile app that supports both Jatheon cCore and Jatheon Cloud.
