

New Hampshire US Navy Veterans Lung Cancer Advocate Urges the Family of a Navy Veteran with Lung Cancer and Who Had Navy Asbestos Exposure to Call Attorney Erik Karst of Karst von Oiste About Compensation

MANCHESTER , NEW HAMPSHIRE, USA,
February 11, 2021 /EINPresswire.com/

-- The New Hampshire US Navy Veterans Lung Cancer Advocate is urging the wife or immediate family of a Navy Veteran with recently diagnosed lung cancer in New Hampshire to please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 about compensation if this person had constant exposure to asbestos in the Navy or at work in the 1950s, 1960s or 1970s. Financial compensation for a person like this might exceed \$100,000 and it does not matter if they smoked cigarettes. A claim like this does not involve suing the navy and the person the Advocate is trying to assist is over 60 years old.
www.karstvoniste.com/

The Advocate says, "Most people who had heavy exposure to asbestos decades ago and who now have lung cancer almost never get a dime in compensation-even though the \$30 billion dollar-asbestos trust funds were set up for them too. If the Navy Veteran or person we have described sounds like your dad or husband, we are urging you to please call Erik Karst of the law firm of Karst von

Oiste at 800-714-0303 for an assessment of what a compensation claim for a person like this might be worth. Erik Karst is one of the nation's leading asbestos exposure attorneys-and he and his colleagues are strictly focused on helping people like this nationwide."

Important Note from the US Navy Veterans Lung Cancer Advocate: "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have

them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact. Frequently compensation for people like this might exceed \$100,000."

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware.

However, asbestos exposure lung cancer can happen in any state including California, New York, Texas, Florida, Massachusetts, Connecticut, Pennsylvania, New Jersey, Illinois, Wisconsin, Minnesota, Nebraska, New Mexico, North Dakota, Wyoming, Utah, Montana, Idaho, Arizona, Washington, Oregon or Alaska. www.karstvonoiste.com/

For more information about asbestos exposure please visit the NIH's website on this topic: <https://www.cancer.gov/about-cancer/causes-prevention/risk/substances/asbestos/asbestos-fact-sheet>.
