

# Learn on Demand Systems Recognized by G2 as “Easiest Admin” and “High Performer”

*Company also celebrated the highest Net Promoter Score for the Virtual IT Labs category*

NEW PORT RICHEY, FLORIDA, USA,  
December 17, 2020 /

EINPresswire.com/ -- Learn on Demand Systems has been recognized as “Easiest Admin” and “High Performer” based on its high levels of customer satisfaction and ratings from real users on G2.com, Inc., the world’s leading business solutions review website.

To achieve these badges, Learn on Demand Systems scored the highest among other contenders in the “ease of admin” category, a 9.5 score for “Quality of Support,” far exceeding the 8.7 average, and the highest “likelihood to recommend” (i.e. Net Promoter Score) for the Virtual IT Labs category.

“We are honored to be recognized in these categories by G2 as they correlate with our goal to make the creation of labs as simple and easy as possible, shortening the time and effort our customers invest in developing hands-on experiences for their learners,” said Corey Hynes, CEO of Learn on Demand Systems.

We are honored to be recognized in these categories as they correlate with our goal to make the creation of labs as simple and easy as possible.”

“Rankings on G2 reports are based on data provided to us by real users,” said Michael Fauscette, Chief Research Officer of G2. “We are excited to share the achievements of the products ranked on our site because they represent the voice of the user and offer terrific insights to potential buyers around the world.”

The “Easiest Admin” and “High Performer” badges are in addition to the “Users Love Us” badge that Learn on Demand Systems earned this fall.

“These folks get it! Learn on Demand Systems allows you to spin up real instances of IT environments, and then present issues that have to be resolved by the student. Like taking a real driver's test, in a car...or a starship. I'm very impressed. They even have an LMS environment you can spin up in conjunction with your particular lab,” says Rick Bauer, a Learn on Demand Systems customer.
