Disabled people deserve to live, they deserve love, they deserve marriage, and they deserve celebration. This should not be a controversial statement, but many think disabled people should not live.”

[[Disability](#)-Focused Wedding Planning Book the First of Its Kind]

Everyone deserves the joy of a wedding– but disabled couples have long been denied respect.

Wedding Planning for Spoonies is the very first wedding planning book centering on disability. Disabled people deserve to be alive, they deserve love, they deserve marriage, and they deserve celebration. This should not be a controversial statement, but too many people believe disabled people do not even deserve life, let alone an

accessible wedding planning book.

Wedding Planning for Spoonies: Inspiration & Tips for Chronically Ill and Disabled Couples intends to serve the disabled community in many ways. Planning a wedding for anyone is difficult. However, disabled people face significant prejudice and unique difficulties when it comes to wedding planning. Wedding Planning for Spoonies looks to empower disabled couples on their journey to matrimony with tips and inspiration and inform wedding vendors of a disabled couple's struggle to improve the industry.

Wedding Planning for Spoonies centers on the premise that all people across abilities, genders and sexualities deserve to be loved, and celebrate their love. The question is, how? How should a wheelchair user find a suitable venue? Or should you plan for an army of wedding attendants if you have chronic pain symptoms? The book releases February 14, 2021. Purchase a copy on Amazon and follow Meara's author page. To receive a review copy, use Booksprout for an eBook or contact Meara directly for a paperback.
