The continuation of these activities and the inability of the regime to thwart them is a testament to the growing effectiveness and sophistication of activities of the defiant youth”

On Sunday, December 20, the defiant youth targeted the Office of the so-called Martyrs Foundation in the city of Khorramabad in the Western Province of Lorestan. They torched the entrance to this center, which is heavily involved in stealing and plundering the resources of the residents in the Province. The same day the IRGC Bassij based, named Kamali, was set on fire in Mashhad, as was a banner of the Bassij in the town of Darrud.

These activities took place despite the fact that the Iranian regime's security and law enforcement agencies were on full alert. The continuation of these activities and the inability of the regime to thwart them is a testament to the growing effectiveness and sophistication of activities of the defiant youth.

Increasing enrage over the suppressive measures undertaken by the regime, local residents in these cities enthusiastically welcomed the activities of the defiant youth.
