*The world's leading vegan certification program now has physical roots and representation in Korea. BeVeg International is globally recognized on 6 continents.*

KOREA, January 2, 2021

/EINPresswire.com/ -- If you're looking for BeVeg Korea, look no further: the Institute of Global Sustainability Certificate (IGSC) officially represents the global BeVeg [vegan trademark](#) in Korea as its chosen vegan trademark certification program. IGSC auditors are trained and qualified to issue the BeVeg [vegan logo](#) and license in Korea in accordance with vegan safety standards and integrity.

IGSC is composed of ISO auditors qualified to carry out the accredited [vegan certification](#) standard set out by BeVeg and approved by the National Accreditation Center to be worthy of ISO 17065 and 17067 certification.

IGSC provides certification services for vegan products, manufacturing facilities and services based in Korea. Vegan products range from food and beverages to pharmaceuticals, cosmetics, textiles, fashion, accessories, household goods, furniture, and more.

Through vegan certification, Korean companies prove that finished products do not contain animal ingredients through a series of raw and subsidiary materials inspection, factory inspection, and animal analysis. BeVeg also requires no animal testing, as vegan is not a diet but a lifestyle built on a firmly held moral belief system that humans should co-exist with animals
