

CATO SIGNS DISTRIBUTORSHIP AGREEMENT WITH M. TECH INDIA

TEL AVIV, ISRAEL, January 5, 2021

/EINPresswire.com/ -- [Cato Networks](#), provider of the [world's first SASE platform](#), announced today that [M. Tech India](#) has joined Cato's channel partner program.

M. Tech is a leading cybersecurity and performance solutions provider headquartered in Singapore with offices in 16 countries, including India.

M. Tech India is headquartered in Bangalore, with eight locations across India and Sri Lanka. The company offers a portfolio of best-of-breed IT products and solutions from cloud access security to advanced threat protection and network optimization and management.

“

Cato's SASE platform is perfect for M.Tech channel partners and customers seeking robust, affordable SD-WAN, security as service, cloud datacenter integration, and secure remote access.”

Bhavin Bhatt, M. Tech Regional Director for India

M.Tech India Adds to Cato Roster of Strong Asia Pacific Partners

“We are very pleased to have M. Tech India join our regional partner program,” says Daniel Lee, Vice President of Sales, Asia-Pacific and Japan, Cato Networks. “The solutions provider has a stellar reputation for helping organizations of all sizes understand and address their digital transformation challenges, from cloud migration to work-from-home, and offers an extensive product portfolio of networking and security solutions to meet those challenges.”

“Cato's SASE platform is a perfect fit for M.Tech channel partners and customers seeking robust, affordable solutions for edge SD-WAN, security as service, cloud datacenter integration, and secure remote access,” says Bhavin Bhatt, M. Tech Regional Director for India and the South Asian Association for Regional Cooperation (SAARC). “Cato's cloud-based, self-healing architecture is vital for organizations in all markets coping with digital transformation in a post-

Covid-19 world where edge security, reliability, and performance are keys to success."

"In a post-Covid-19 world, SASE is as critical to businesses as the Internet," adds Lee.

Cato Enhances Regional Channel Programs

Cato is also beefing up its channel support services in the South Asian region. "We have a great channel program to support strong value-added distributors such as M.Tech India with extensive nationwide coverage and we're always making improvements," says Ron Ho, Regional Sales Director for the Asia Pacific region and Japan. "In the coming months, partners can expect to see a much more robust deal registration program and a greater focus on solution providers and MSPs that want to lead with SASE."

Cato will also introduce a new SASE certification for end customers and technical support accreditation for partners looking to offer technical support services. SASE-accredited partners will be certified to offer Cato SASE tier-1 support while expert-level partners will be able to deliver both tier-1 and tier-2 support. The new training is free but available only to select partners meeting specific training and support requirements in each region. The new accreditations join the Cato Distinguished Support Provider (CDSP) accreditation program already available to partners.
