Among the two DeAngelo Anderson who is 32 years old was a collegiate student-athlete, veteran that completed a bachelor's degree in construction management from the University of Minnesota and acquired a master's degree in organizational leadership from National University of San Diego topping off his life goals.

DeAngelo began trading in January 2020. After only 10-months of trading and starting with an initial investment of \$750.00 USD he perfected his trading strategy and quickly became a 7-figure trader offering the aforementioned course online. His inclination is to create forex traders how to master discipline, patience, and determination in order to be successful.

The other founding member of this initiative is Raider Diaz. The 24-year-old was born and raised in Avondale, Arizona working in EMS for 5 years. His forex trading journey began May of 2019. Mentored by a successful 7-figure trader he found success. Unfortunately, the salary of an EMT in Arizona isn't exactly great living. This made him eager to learn and make money with forex.

My trading journey started off making all the rookie mistakes. After losing thousands on the

verge of quitting I took a step back, relied on my mentor to get me on track. I began flipping \$100 demo accounts to \$5,000 until it become second nature. I started trading live funds again with another \$100 and well you can guess what I did with it.
