

TruTrade.IO Introduces MACD Global Automated Trading Software

SCOTTSDALE, ARIZONA, UNITED STATES, January 6, 2021

/EINPresswire.com/ -- TruTrade.IO is revolutionizing retail trading one product at a time. The latest product to join their ranks is none other than MACD [Global automated trading software](#).

TruTrade.IO is on a mission to provide institutional-grade trading technology to traders worldwide. This is what inspires each and every automation they create. Through their innovative trading technology, TruTrade.IO is empowering traders worldwide to take advantage of the market in the same ways that large investment banks and other financial institutions have been able to for decades.

MACD Global automated trading software enables retail traders to trade trends, momentum plays, and short-term scalps in everything from stocks and futures to forex markets. To make trading simpler than ever before, MACD Global automated trading software has a distinct entry switch for each style of trading.

TruTrade.IO has delivered a true MACD automated strategy that provides seamlessly interactive functionality switching between trading styles. TruTrade's MACD PRO/Global versions provide traders the ability to switch between MACD average line, fast line, and histogram strategies on the fly, entries and exits are executed in milliseconds.

In today's rapidly-moving markets its imperative technology keeps pace! TruTrade is revolutionary in the world of automated trading technology. It is even more revolutionary when one compares the ability of MACD Global automation trading software to that of manual trading.

Humans simply do not have the capacity to execute with the precision of automation. TruTrade.IO's automated trading software is truly extraordinary.

Ultimately, MACD Global automated trading software is the latest in TruTrade.IO's line up of automated trading technology to empower traders to automate their trading with extreme precision.

The software has a Built-In Back-Test mode that plots historical fills onto a user's chart, allowing the user to dial in and preserve their strategy for best results. The user has the ability to bank profits with just the click of a button, while MACD Global is already on the hunt for the user's next entry.

TruTrade.IO recommends thinking of MACD Global as a fully automated robot that only the trader commands.
