

California US Navy Veterans Lung Cancer Advocate Has Endorsed Attorney Erik Karst of Karst von Oiste to Make Certain a Navy Veteran with Lung Cancer in California Gets Compensated-If he Had Navy Asbestos Exposure

LOS ANGELES, CALIFORNIA , USA, March 5, 2021 /EINPresswire.com/ -- The California US Navy Veterans Lung Cancer Advocate says, "If your husband or dad is a Navy Veteran with recently diagnosed lung cancer anywhere in California please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303-if your loved one had significant exposure to asbestos in the service. Financial compensation for a person like this might exceed \$100,000 and the claim does not involve suing the navy. The typical person we are trying to identify is probably older than 60 years old and their asbestos exposure occurred in the 1950s, 1960s or 1970s onboard a navy ship, submarine or at a navy shipyard.

"The \$30 billion dollar-asbestos trust funds were set up for Navy Veterans and people who have lung cancer and who had significant exposure to

asbestos in the service or at work prior to 1982. Most Navy Veterans or people we talk to are

almost always stunned to learn they might qualify for significant financial compensation. If the person we have just described sounds like your husband or dad-please call attorney Erik Karst at the law firm of Karst von Oiste anytime at 800-714-0303 to discuss possible compensation. We think you will be glad you did." www.karstvonoiste.com/

The California US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Los Angeles, San Pedro, San Diego, San Jose, San Francisco, Fresno, Irvine, Oakland, Long Beach, Anaheim, Bakersfield, Riverside, Sacramento, Stockton or anywhere in California. <https://California.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos in California include US Navy Veterans, workers at one of California's more than 70 power plants, shipyard workers in San Diego, Long Beach, or San Francisco, oil refinery workers in Long Beach or Martinez, manufacturing workers, public utility workers plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the

risk of lung cancer is five times that of unexposed workers.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even

though the asbestos trust funds were set up for them too. We are trying to change this sad fact.”

<https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. www.karstvonoiste.com/
