

# Collagen Peptide and Gelatin Market to Reach Valuation of \$6,729.00 Million by 2025

*Collagens are building blocks of a living body, and they comprise nearly 30% of the proteins in the human body.*

PORTLAND, OR, UNITED STATES, January 7, 2021 /EINPresswire.com/ -- [Collagen Peptide and Gelatin Market](#) size was valued at \$3,727.34 million in 2017, and is expected to reach \$6,729.00 million by 2025, registering a CAGR of 7.8% from 2018 to 2025.

Collagens are building blocks of a living body, and they comprise nearly 30% of the proteins in the human body.

Collagens are the key structural protein that ensures the cohesion, elasticity, and regeneration of all our connective tissues, such as skin, tendons, ligaments, cartilage, and bones.

Collagens are composed of large triple helix chains of amino acids, and these large triple helix chains are not soluble. Some of the applications include collagen casings, medical materials, sponges for burns, and others. When collagens are partially hydrolyzed, gelatins are formed. In this process, collagen triple helices are broken down into individual strands. This molecular structure is soluble in hot water and jellifies when cooled.

Further, hydrolysis of these gelatins leads to the formation of peptides. In this process, the individual strands of protein are broken down into small peptides of amino acids. These peptides are even soluble in cold water, easily digestible, and ready to be absorbed by the human body.

The collagen peptide and gelatin market growth is attributed to rise in awareness of consumers

Collagen Peptide and Gelatin Market

towards the health benefits associated with it coupled with rise in disposable income, alteration of lifestyle, and high adaptation of a healthy diet. Moreover, development of the food & beverage industry further augments the growth of the market. However, stringent food regulations, social and religious food norms, and enhanced awareness towards animal conservation is anticipated to restrict the market growth.

The bovine segment by source is estimated as the largest segment, comprising more than two-fifths of the global collagen peptide and gelatin industry, in terms of volume. However, the marine collagen segment is regarded as the premium quality collagens. In addition, they are accepted among the Hindu and the Muslim consumers.

#### KEY FINDINGS OF THE STUDY

- The gelatin segment dominates the global market and is expected to grow at a high CAGR of 8.2%, in terms of revenue, during the forecast period.
- The food & beverage segment by application contributes to more than half of the global market in 2017 and is anticipated to be the fastest-developing segment, in terms of value, growing at a CAGR of 8.5%, from 2018 to 2025.
- The bovine collagen peptide and gelatin market contributed more than one-third of the global market by source and is expected to witness the highest growth rate at a CAGR of 8.6% in terms of value.
- The marine segment by source is the most premium segment and is anticipated to witness a CAGR of 8.1% during the forecast period.
- The Asia-Pacific region dominates the global market, and it is estimated to hold more than one-third of the global market in terms of volume and is anticipated to witness the highest growth rate during the forecast period.

The major companies profiled in this report are Collagen Solutions, Plc, Darling Ingredients, Inc., Ewald-Gelatine GmbH, GELITA AG, GELNEX, Holista Colltech Limited, LAPI GROUP SpA., Tessengerlo Group, Trobas Gelatine B.V., and Weishardt Group.

#### About Allied Market Research:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domains. AMR offers its services across 11 industry verticals including Life Sciences, Consumer Goods, Materials & Chemicals, Construction & Manufacturing, Food & Beverages, Energy & Power, Semiconductor & Electronics, Automotive & Transportation, ICT & Media, Aerospace & Defense, and BFSI.

We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
