

# Vaginal Mesh Attorney Laura Baughman Offers Education on the Legal Process Post-MDL

*Attorney on the frontlines, trying to end the vaginal mesh debacle, releases podcast.*

SANTA BARBARA, CALIFORNIA, UNITED STATES, January 8, 2021 /EINPresswire.com/ -- "My firm represents a number of women with pudendal neuralgia caused by the Obtryx sling. There is no question that the Covid-19 crisis has caused a delay in cases moving forward to trial, but we are hopeful that delay will be ending soon. We remain very cognizant of our case selection, and the cases we do accept are those that involve neurological injuries and those with symptoms of neuralgia. Martin Baughman and other leading law firms are with me as we move against defense manufacturers" ...Greg Vigna, MD, JD

“

Finally, the MDL attorneys have cleared out of the way, COVID-19 is nearly over, and we are getting trials scheduled as our first wave of pudendal neuralgia cases are concluding discovery.”
