

T2 Tech Group Expands Service Offerings with End-to-End Lab Consulting for COVID-19

Leading IT Consulting and Project Management Firm Leverages its Vast Healthcare Experience and Trusted Consulting Methodology to Launch New Offering, T2 Labs

LOS ANGELES, CA, UNITED STATES, January 12, 2021 /EINPresswire.com/ -- [T2 Tech Group](#), an

Our services allow labs to reduce turnaround times for COVID-19 testing and enable rapid care of patients without significant impact on resources and workload.”

James Rockenbach

industry-leading IT consulting, advisory, and project management services provider, has announced its new practice – [T2 Labs](#) – a clinical laboratory consulting service. T2 Labs can provide a full-service solution to modernize lab infrastructures looking to add COVID-19 testing capabilities – from complete workflow and financial viability assessments to test kits and staff augmentation.

“Widespread preventative testing is essential in preventing a further outbreak of COVID-19 and supporting a return to

the new normal,” says James Rockenbach, Chief Strategy Officer, “and our services allow labs to reduce turnaround times for COVID-19 testing and enable rapid care of patients without significant impact on resources and workload. “

To meet the demand for all organizations attempting to function during the pandemic, T2 Labs can also offer an ample supply of assay, utilizing the FDA EUA approved GeneFinder™ COVID-19 Plus RealAmp kit by OSANG Healthcare. T2 Labs is an authorized distributor of the test kit, which detects all variants of COVID-19 at 100% specificity with automation across multiple platforms. The kit provides a fast diagnostic method for symptomatic and non-symptomatic patients, enabling quick intervention.

T2 Labs draws on decades of healthcare experience from its executive team, utilizing a trusted hybrid methodology that combines a refined waterfall strategy with an Agile-based execution method.

Leigh Sleeman, Partner of T2 Tech Group said, “The ability to build the necessary protocols and workflows is critical in the productivity and efficiency of a clinical lab. Our lean methodologies have been practiced for years to optimize how staff operate within the hospital and will help understand the effort required for a successful lab environment. “

T2 Labs services are being deployed across leading healthcare organizations across the United States to determine proper equipment, methodologies, and interfaces for setting up in-house testing.
