

# Brand Drug Prices Rise Through the First Ten Days of January

108 Additional Brands Since January 1st

FAYETTEVILLE, NEW YORK, UNITED STATES, January 13, 2021

/EINPresswire.com/ -- The pharmaceutical industry continues the trend of raising brand name drugs in January. After raising the prices of 376 brands on January 1st with an average price increase of 4.5%, manufacturers have raised the prices for 108 additional brand drugs through January 10th averaging 4.8%.

Price increases for these 108 additional drugs range from a low of 0.8% for Adakveo, used to treat pain crises in sickle cell disease, to a high of 10.0% for 3 brands; Adzenys XR-ODT, commonly used to treat ADHD, Cosmegen, used to treat different types of cancers and solid tumors, and Desoxyen, used to treat both ADHD and obesity due to overeating.

Other notable drugs taking price increases since January 2nd include Januvia, an oral diabetes medicine, averaging 4.9%, Myrbetiq, used to treat symptoms of overactive bladder, averaging 3.0%, Entresto, used in certain people with chronic heart failure, averaging 7.0%, and Durezol, used to treat swelling and pain after eye surgery, averaging 5.5%.

For more information on drug price increases on January 1st, you can find our press release on

	# OF BRANDS	AVERAGE PERCENT INCREASE

It is not out of the ordinary for manufacturers to continue to delay raising prices until later in January. DMD America will provide updates weekly through the end of the month.

It is important to note we used, for this analysis, the Wholesale Acquisition Cost (WAC), a list price, that is set by the drug manufacturer without taking into account rebates, insurance, and other discounts that may be available.
