

Oklahoma US Navy Veterans Lung Cancer Advocate Appeals to The Family of a Navy Veteran with Lung Cancer in Oklahoma to Call Attorney Erik Karst if He Had Navy Asbestos Exposure-Compensation May Exceed \$100,000

OKLAHOMA CITY, OKLAHOMA , USA, March 12, 2021 /EINPresswire.com/ -- The Oklahoma US Navy Veterans Lung Cancer Advocate says, "We are appealing to the wife or adult son-daughter of a Navy Veteran or person with lung cancer to call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 if your loved one had significant exposure to asbestos in the navy or at work prior to 1982. Financial compensation for a person like this might exceed \$100,000 and the claim does not typically involve suing the navy or a former employer. It does not matter if the person smoked cigarettes. The typical person we are trying to identify is over 60 years old.

"We could not say this enough times-----the \$30 billion dollar-asbestos trust funds were set up for people who had heavy exposure to asbestos in the navy or at work and who then develop lung cancer. If this sounds like your husband or dad-please call attorney Erik Karst of the law

firm of Karst von Oiste at 800-714-0303 to explore possible compensation and what might be involved. Erik Karst is one of the nation's leading asbestos exposure lawyers."

"We are appealing to the family of a Navy Veteran or person with lung cancer to call attorney Erik Karst of Karst von Oiste at 800-714-0303 if your loved one had exposure to asbestos-prior to 1982."

*Oklahoma US Navy Veterans
Lung Cancer Advocate*

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never

get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact." <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Oklahoma. www.karstvoniste.com/
