

BriskNPosh – Continues to grow its service list

NEW YORK, NEW YORK, UNITED STATES, January 15, 2021 /EINPresswire.com/ -- BriskNPosh continues to grow by adding new services. The location offers their new [Lip Blush](#), [Lash Line Enhancement](#) and [Semi-Permanent Eyeliner](#).

Lip blushing is a type of semi-permanent service using a technique called pixelating, which deposits pigments in your lips by using small needles. This service focuses on altering the color and/or shape of your lips to create “younger looking lips”.

Lash Line Enhancement is a thin semi-permanent line that sits at the root of your lashes and gives the illusion of a fuller lash line. Almost as if you applied eyeliner underneath your lashes rather than on top of the lash line. Lash line enhancement is meant to subtly define your eyes, leaving you with a soft pretty result.

Similar to the lash line enhancement, semi-permanent eyeliner is a service done on the lash line. It fills in the lashes to create the illusion of thicker, darker, and completely fuller lashes without looking lined or like obvious makeup.

The new lineup of services has been added to continue to create a holistic approach to the beauty service business. The location has been determined to put together a one-stop shop feel so that the busy SoHo New Yorkers can save time by getting most of their services under one roof. It is the new approach to the industry.
