From Art Mendenhall's small neon transformer rebuilding company called Regional Electric Works in 1946, to a more diverse distribution company called Regional Sign Supply in 1951, to a company that today is involved in a wide

variety of disciplines. With expertise in products and processes that range from just about anything to build a sign, vacuum forming, CNC routing, screen printing equipment and supplies, wide format printing, dye sublimation, and both flexographic and digital label printing.

In the past 75 years, we have had the privilege of serving so many customers from as far north as Barrow, Alaska to Miami, Florida in the south, and countless places in between. However, for most of that time the majority of the business has been in the heart of the Intermountain West.

From our company and all of our employees (some that it seems have been here the whole 75 years) we thank all of you for the great relationships, stories and memories that we have had along the way. We appreciate the partnerships with you and look forward to creating many more of the same over the next 75 years. Our goal continues to be to serve our customers with the best possible products and services in the business.

We hope to use the 75th anniversary theme this year in some of our fun events and training/expo events that we have had a difficult time holding in the past year.
