Customers around the world now can purchase Bitcoin and Ethereum contracts with BTC, ETH, or LTC.

Miners garden will be running top-of-the-line mining machines in different data centers to provide a stable and consistent hash rate. A total of 17PH/s for BTC contract and 44GH/s for ETH contract are available for purchase until December 1 for this first batch, while the order unit is 1TH/s and 1MH/s respectively.

“

If you don't find a way to make money while you sleep, you will work until you die.”

Warren Buffet

“By launching the [crypto cloud mining](#) service via new farm and more team, they have lowered the mining threshold,” said Irina Norkazo, Partner and COO of Miners garden.

“Though there are more institutional players entering this industry to set up large crypto mining farms, individual miners can still participate and benefit from purchasing cloud mining contracts.”

The cloud mining service offers more people the opportunity to mine cryptocurrencies, solving problems such as installing and configuring mining machines, high costs for purchasing equipment, and expensive electricity for novice miners.

Miners garden has a long-standing reputation in the mining industry, and always strives to provide customers with the best services and returns. Miners garden will take the risk once there is a malfunction in mining machines or mining farms, so mining yields of cloud mining contracts

will not be affected. Besides, prepayment of electricity fee is not required, so customers can purchase more hash rate with the same amount of money.

It is worth mentioning that referral rewards and time-limited discounts are also available to encourage more people to participate in cloud mining. they will also launch the trading function later as well, enabling users to trade their contracts freely on the secondary market.
