

# TEEVID DISRUPTS THE EVENT INDUSTRY

*"IT'S ALL ABOUT THE EXPERIENCE"*

CHICAGO, ILLINOIS, UNITED STATES, January 19, 2021 /EINPresswire.com/ -- What if you could create [virtual events](#) that rival in-person events? [TeeVid](#) has redefined the meaning of customization & audience retention.

TeeVid is announcing TeeVid Events, an online solution that enables users to create, produce & broadcast immersive experiences. Creators can easily rebrand the interface with the click of a button & drive audience retention through engaging storyboards.

The current global reality has caused a massive shift in the ways we communicate, meet, and engage with each other. In the blink of an eye, events, concerts, and meetings were all online and presented in similar unmemorable formats.

Creators have been challenged to deliver impactful virtual events that stand out from the crowd, leading to a high concentration of un-engaging events. In other words, there is ample room for differentiation and a unique approach to engagement and top of mind recall.

From pre-planning to audience engagement mechanisms, the fully customizable interface enables creators to create an attachment with their audience. Think about the most engaging video experience ever encountered, this can be accomplished and so much more with AR, Animation & Live Video capabilities.

Founder & CEO of TeeVid, Adi Nathan, says: The suite of production tools including an online production studio & attendee producer panel, enables creators to deliver an unparalleled experience for their virtual audience to capture their attention.

To increase audience retention & interaction TeeVid's producer panel seamlessly enables moderators to select attendees that use the hands up feature to participate with the host on the

live stage. Moderators can then manage the stage by dragging & dropping participants into a variety of screen layouts.

Live events can be broadcast across social platforms & branded webpages, generating maximum exposure.

Why settle with screen share and a powerpoint?

Branch out from the status quo.

Start by reaching out to TeeVid for a free demo; your audience will thank you.
