For Holly, it's not just about teaching the courses, getting paid and receiving all of these great awards; it's really just a way of life. Having such a passion for teaching and for the underwater environment means that every professional diver who decides to take the next step can feel confident that Holly will be there before the program starts, throughout the course, during the instructor examination and will even be available afterwards for assistance when starting out in what many would call the real world.

The PADI IDC Indonesia with Holly really is a passport to a new career teaching others to dive with the skills, knowledge and confidence to be highly successful in the journey.
