

Pythian Achieves Managed Services Provider Status In the Google Cloud Partner Advantage Program

Pythian's extensive managed services experience brings a wealth of value to clients using Google Cloud

NEW YORK, NY, USA, January 26, 2021 /EINPresswire.com/ -- Pythian Services Inc. ("Pythian"), a leading data, analytics and cloud services company, announced that it is now a [Managed Services Provider](#) (MSP) in the Google Cloud Partner Advantage program. The company qualified through an extensive third-party audit by demonstrating its end-to-end customer lifecycle service delivery capabilities.

The Pythian logo, consisting of the word "Pythian" in a large, black, sans-serif font, with the tagline "love your data" in a smaller, grey, sans-serif font below it. A registered trademark symbol (®) is located to the right of the tagline.

Pythian helps businesses use data, analytics and the cloud to transform how they compete and win by delivering advanced cloud solutions that solve the toughest data challenges faster and better than anyone else.

As a Google Cloud MSP partner, Pythian brings 23 years of experience in managed database, applications, networking, infrastructure, migration, and data analytics services to its customers using its proven Plan-Deploy-Manage methodology.

“

We leverage Pythian's services to ensure that we are continually optimizing our cloud utilization, spending and architecture. Pythian allows us to be agile while reducing our total operating costs.”

Suchit Bachalli, CEO of Unilog

“We're pleased to recognize Pythian as a Managed Services Provider within the Google Cloud Partner Advantage program,” said Baris Eris, Global Program Lead, Managed Service Providers at Google Cloud. “The expertise and industry experience Pythian offers to customers will further enable them to get the most out of the cloud as they scale.”

Google Cloud customers working with Google Cloud MSP partners benefit from hands-on support, ongoing workloads management and oversight, and other services that help them maximize their cloud environment.

“We leverage [Pythian’s services](#) on an ongoing basis to ensure that we are continually evaluating and optimizing our cloud utilization, spending and architecture,” said Suchit Bachalli, CEO of Unilog. “Pythian’s understanding of Unilog’s business and systems allows us to be agile while reducing our total operating costs, which is a big win.”

Pythian provides end-to-end services and solutions for Google Cloud that span applications, infrastructure, operations management, DevOps, and data and analytics. The company’s unique expertise in these technologies helps mid and large size organizations transform their business with data using Google Cloud.

Pythian’s services include:

- Creating flexible and scalable analytics data platforms in Google Cloud
- Cost and performance optimization
- Large scale automated virtual machine (VM) migrations to the cloud
- Architectural design, data modeling, cluster design, backups and disaster recovery
- 24x7 monitoring and response
- Performance tuning, patches and upgrades
- Access to Pythian’s 300+ technical experts
- Worldwide support with dedicated support teams
- Flexible contracts for long-term as well as shorter, risk-free trials

“Pythian has deep roots in the managed services industry, making this new achievement especially well-earned,” said Keith Millar, President at Pythian. “The depth of our expertise helps our clients rapidly realize a strong return on cloud investment. Unlike alternative offerings in the market, Pythian is building layers of value-added services on top of the Google Cloud MSP framework. We are actively listening to our customers needs, which creates the requirements for these additional services.”
