

LG NETWORKS ACHIEVES MICROSOFT GOLD PARTNER STATUS

LG Networks, Inc. is proud to announce that it has achieved Microsoft Gold Partner Status in Cloud Productivity.

DALLAS, TEXAS, UNITED STATES OF AMERICA, January 25, 2021

/EINPresswire.com/ -- LG Networks, Inc., the leading provider of [Managed Services](#), [IT Support](#), and [Network Support](#) in the Dallas/Ft. Worth area, is proud to announce that it has achieved Microsoft Gold Partner Status in Cloud Productivity. A Cloud Productivity

competency highlights an organization's skills in delivering innovative Office 365 solutions in applications like Exchange Online, SharePoint Online, Teams, and Skype for Business.

Microsoft Gold certified partners gain access to the latest Microsoft technology products and services, as well as ongoing training and empowerment. By achieving Microsoft Gold Partner Status, LG Networks demonstrates the highest level of technical excellence with Microsoft technologies and its commitment to meet the constantly evolving need of customers for a secure, productive, and collaborative workplace environment.

“Only one percent of companies in the Microsoft Partner Network achieve gold distinction,” said Lou Garcia, CEO of LG Networks. “We consider it a privilege to be able to offer our customers the support that being a Microsoft Gold certified partner entails.”

After meeting the strict technical requirement guidelines and standards, LG Networks was able to demonstrate its best-in-class capability for Microsoft Gold status consideration. As a Gold partner, LG Networks receives the benefits of a deeper working relationship with Microsoft.

“By achieving a Gold competency, partners have demonstrated the highest, most consistent capability and commitment to the latest Microsoft technology,” said Gavriella Schuster, corporate vice president, One Commercial Partner (OCP) at Microsoft Corp. “These partners have a deep expertise that puts them in the top of our partner ecosystem, and their proficiency will help
