### About Purplepass:

Founded in 2008, Purplepass is an all-in-one event management hub for anything from large festivals to small gatherings and live streams. Their parent company created and operated the largest social media network for EDM/Dance Music in North America.

Through the ties and relationships created, Purplepass was born out of necessity. There were no complete ticketing solutions for large single-day and multi-day festivals that covered everything from online presale, marketing analysis, pre-printed material (wristbands, ticket stock, parking stubs), volunteer management, 24/7 support, etc. Online resources lacked an easy-to-use box office for ticket sales and admittance support for tens to thousands of guests.

“

We all hate this virtual world. I know I do. But at least let's find the positive out of it, as we're forced to do things that we normally wouldn't have done.”
