DONY MASK - premium Covid antibacterial cloth face mask (washable, reusable) with CE, FDA, TUV Reach, DGA Certification

CE, FDA, and TUV Reach. It is made from a three-ply, water-resistant, and 99.9% antibacterial cloth, passing some of the most stringent standards in the world. The mask's outer layer features strong water resistance, which prevents droplets from clinging to the mask and limits the potential for viral infection. The middle layer functions as a filter. The inner layer has the most antibacterial effects. It's a breathable design.

Since they're machine washable, Dony Mask can re-use again and again—the antimicrobial coating lasts up to 60 washes still has an antibacterial effect of over 99%.

3-ply cloth face masks that certificated to meet all requirements for a healthcare product

Dony masks are widely used not only in the general public but in medical fields also for their features.

100% clean and safe for our health thanks to sterilization technology

In Dony Garment Company, all masks are produced

under a modern technology of sterilization and packaging with heat sealing. The company uses this technology as a disinfection process so that their products are guaranteed to be penetrated by tiny particles and bacteria, viruses. Ethylene Oxide sterilization is normally used in producing healthcare goods as its low-temperature gaseous process can be used for a wide variety of materials.

“

Dony Mask offers unbelievable protection from COVID-19 and other viruses, and it is very comfortable to wear. We have Exclusive Distributors in Australia, New Zealand, Belgium, Malaysia, UAE, Canada.”

Henry Pham, CEO of DONY Garment Company

After being sterilized, Dony masks are packages in their bag with heat sealing, isolated from any human touch. So that every mask is ensured to 100% clean and safe and ready to be used immediately after opening. Consumers do not have to wash them before using them.

Three-layer masks design with specialized functions As 3-ply cloth face masks, Dony masks are antibacterial, anti-virus, able to prevent fine particles. It can also hinder the growth of microorganisms and 99.9% of bacterial in droplets which floating in the air.

Outer layer: It makes the mask 100% waterproof. With this feature, a Dony mask can prevent droplets from cling to the mask and limit viral infection. This layer is granted Global Intertek Certificate with 100 points.

Dony Mask full information

Middle layer: This layer helps to clean dust as an air filter and prevent other tiny particles to enter people's nose and mouth.

Moreover, the mask is washable and it can remain all functions perfectly after 60 washing times. This choice will help you to reduce waste to the environment compare with using single-use masks. Dony masks can also protect consumers from UV rays. Other certifications that Dony masks gained:

- FDA Certification for products exported to the US. market.

- ISO 9001:2015 Certificate

- C.E. Certification (Conformité Européenne)

- Certification of chemical safety (TUV Reach)

- Certification for Free Export

- Aseptic inspection certificate

- Global Intertek inspection certificate about 100% waterproof (this is a maximum level), UV resistance at 99.95% (Equivalent to high-class sun cream), more than 99.9% antibacterial even after 60 washes.

- Breathing resistance (mmH₂O) at 1.8

- DGA certification (certified by French Ministry of Armed Forces): Dony Mask can resist NCovid up to 99% at the 1st use (and 96% after 30 washings). This emphasizes Dony Mask's direct resistance against NCovid.

This mask meets nearly all required standards for a face mask such as FDA certification of the US market, ISO 9001:2015, the global INTERTEK certification, CE certification of EU countries, etc. By owning all these mentioned features, Dony masks now are exported to a lot of other countries outside Vietnam.

These various features also help Dony masks to outweigh a lot of competitors in the market. Another factor that makes Dony Garment Company is one of the biggest manufacturers in this industry that they provide certain supportive policies for distributors. Partners of Dony are allowed to sell Dony masks on an exclusive territory with a preferential policy of priority production. They can also receive support from the Dony Garment Company sales team and production team. Partners can advertise their products on the Dony Company's foreign and local channels. Dony can support partners regarding their documents and certificated problems too.

DONY Reusable and Antibacterial Face Mask
Launches in Europe after Increased Demanded for
Eco-Friendly Civilian Masks

The company is [supplying globally by wholesale, bulk, and branded](#) (Custom Logo / Label / OEM - ODM):

The Dony Mask is available in a variety of colors and for bulk orders. It has 3-layers of protection that are well-thought-out in design and comfort. These layers filter out dust, germs, and bacteria. The Dony Mask designs are also unisex.

Additionally, Dony provides distribution for B2B purposes and even exclusive partnerships. The company can provide free samples, trial orders, wholesale orders, bulk orders, and custom orders with branding opportunities for logos and labels. Businesses can either use the branding opportunities for use from their employees or create merchandise for their customers or fans to buy.

Dony Mask has Exclusive Distributors in Australia, New Zealand, Belgium, Malaysia, UAE, Canada.
