

# SANTO Blockchain Labs Finalizes Deployment of Voycare

HO CHI MINH CITY, VIETNAM, February 10, 2021 /EINPresswire.com/ -- Santo Mining Corp. dba Santo Blockchain Labs (OTC PINK:SANP) and its subsidiary in Vietnam [SAITEC](#) Technology & Development JSC announces the finalization of the deployed Telemedicine site of North American Frac Sand, Inc. dba [Voycare](#) [www.voycare.com](http://www.voycare.com). During 2020 the team at SAITEC was diligently working on the development of the first digital health platform exclusively dedicated to women's health in Asia, with the primary focus on the Chinese healthcare market. The platform is designed for American Doctors to provide second opinion services to patients in Asia. With the current global travel restrictions telemedicine and remote internet communications services are vital.

SANTO's subsidiary SAITEC, is currently busy with internal projects like DNATags, Cardano staking pool "[SANTOPOOL](#)" and other outsourcing projects, which will be made public when they are completed. SAITEC is a vital arm of SANTO Blockchain Labs and the Company sees a parabolic employment growth in SAITEC of 200% after the Lunar Year.

“

If math is God's universal language, then Blockchain is his commerce and Bitcoin his currency.”

*Frank Yglesias*

Frank Yglesias CEO of Santo Blockchain Labs, added, "Since 2017 we have been silently working away from developing

blockchain apps like SKULLYS the first every reward base ERC721 non-fungible tokens, DNATags Authentication on blockchain to outsourcing software development services to companies like Voycare.”

## FORWARD-LOOKING STATEMENTS

This press release contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact included in this presentation are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments, and business strategies. These forward-looking statements may be identified by the use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "will" and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions, and expectations reflected in or suggested by such forward-looking

statements are reasonable, we cannot assure you that we will achieve those plans, intentions, or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected or may prove unachievable.

The Company's business and prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies working with new and rapidly evolving technologies such as blockchain. These risks include, but are not limited to, an inability to create a viable product and risks related to the issuance of tokens. Furthermore, the Company's business contemplates participation in a highly regulated space of consumer finance and associated customer data and therefore may face regulatory and execution challenges, particularly in light of the novelty of the concept. The Company cannot assure you that it will succeed in addressing these risks, and our failure to do so could have a material adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance as to whether or when (if ever) the Company will achieve profitability or liquidity. The forward-looking statements included in this press release are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as otherwise.
