“

Dental implants are among the most successful treatments available.”

Dr. Matthew Lang

Dental implants remain the most popular service offered by the team at Castle Dental. A dental implant, used to replace a missing tooth, is a titanium implant topped with a ceramic crown. It is not only natural-looking but extremely durable.

“Dental implants are among the most successful

treatments available,” says Dr. Matthew Lang. “They have a success rate of over 90%. Once the implant fuses to the jawbone, it looks and feels like a real tooth.”

The implant, abutment, crown, and any supplemental procedures are all included in the cost of [dental implants in Center Valley](#).

Other services offered by Castle Dental include same-day CEREC crowns, implant-retained dentures, and cosmetic dentistry like tooth whitening and veneers.
