

DNS Made Easy Ranks #1 in Speeds Seven Months in a Row

Third-party network-monitoring firm, SolveDNS, lists DNS Made Easy as the fastest managed DNS service for January 2021

RESTON, VIRGINIA, UNITED STATES, February 11, 2021 /EINPresswire.com/

-- Tiggee LLC, the parent company of DNS Made Easy and Constellix, announced that DNS Made Easy has ranked number one in speeds for seven consecutive months.

According to the third-party network-monitoring firm, SolveDNS, DNS Made Easy has topped the DNS Speed Comparison Report for January 2021.

This report displays the fastest managed DNS services across the world and reports DNS Made Easy as the fastest with 2.19ms for the reported month.

DNS Made Easy's sister company Constellix has reported faster speeds compared to the [previous month](#) with 4.33ms, surpassing Cloudflare and the majority of other providers in the market for January 2021. "Investing in our own infrastructure has allowed DNS Made Easy to rank number one continuously," says Steven Job, President of DNS Made Easy and Constellix, "This has made it possible to provide the fastest resolution times for our customers' domains month after month and ensure that their services are online 100% of the time."

There are many ways in which [website speed](#) can be improved, but [DNS performance](#) is ultimately at the core. Regardless of the internet connection speed, DNS server resolution is what dictates or controls the load times for websites. Tiggee has invested in its network infrastructure to provide optimal DNS resolution and ensure 100% uptime for DNS Made Easy and Constellix's managed domains.

About DNS Made Easy

DNS Made Easy (DNSMadeEasy.com) is a subsidiary of Tiggee LLC and a world leader in providing global IP Anycast enterprise DNS services. DNS Made Easy implemented the industry's
