Geolocation

productive, providing collaborative access regardless of time and location with a paperless, cost-efficient solution.

Alongside the release of this version, LogicalDOC Document Management Software said, "With this new step, we want to increase the ROI of our customer's existing infrastructure, leveraging the ability to capture data from any source." Most companies are keen on multiplying their ROI of their prevailing infrastructure, capitalizing from the ability to drive data and documents from any given source, transforming and sharing it across the company in a secure and cost-efficient fashion. The LogicalDOC offers a viable and simple solution reinforcing organizations to cut-cost, boosting productivity at large.

This new version comes with latest features and it benefits i.e an embedded zoner designer in the web interface, batch or immediate processing via a scheduled task, multiple formats support Automation and Web services API accessible features. All of these features result in easy extraction of metadata from scans, automation of scanning data flow with better processing time and customer satisfaction in a cost-effective manner.

About LogicalDOC

LogicalDOC is a global software company, founded in 2006 based in Fair Lawn, New Jersey, USA, to address the ever-increasing and wide-ranging needs and demand of Enterprise Document Management. They strive to aid companies in their endeavour of search and management of their business documents, which they rely on every day.
