

Wyith Institute™ BCR@W coin chosen as micro-financing solution for the Mexican National Indigenous Government

MEXICO CITY, MEXICO, February 13, 2021 /EINPresswire.com/ -- [Wyith Institute™](https://www.einpresswire.com/press-releases/wyith-institute-announces-another-of-its-major-breakthrough-today-in-its-digital-token-and-asset-management-service) announces another of its major breakthrough today in its digital token and asset management service. Gobernatura Nacional Indígena de México, i.e. the Sovereign National Indigenous Government of the United States of Mexico (known as GNI), announced today that it has chosen Wyith Institute™ to help roll out its first adoption of its digital payment currency using [Bankcoin Reserve at Wyith](https://www.einpresswire.com/press-releases/bankcoin-reserve-at-wyith) (BCR@W), a forked version of Bankcoin Reserve (BCR) modulated and designed by Wyith Institute™.

"GNI sees that the digital age is upon us and society is headed for the future. Hence the Indigenous Nation wishes to be part of the digital age and accompany innovation towards present day and future success," remarked the Honorable Hipólito Arriaga Pote, Governor of GNI, the Sovereign National Indigenous Government of the United States of Mexico.

“

The Indigenous Nation wishes to be part of the digital age and accompany innovation towards present day and future success.”

The Honorable Hipólito Arriaga Pote, Governor of GNI, Mexico

"We also recognize the necessity of having its own digital asset coin to help with the Indigenous Nation's citizens pay for day-to-day needs such as education, potable water, and general daily goods and services," added Alberto Castellanos, Administrator of GNI.

"We have assisted or have worked with the GNI previously in a number of humanitarian projects for the indigenous people of Mexico, including the 50/50 automobile loan program, the water machine project, the land and livelihood project that relates to food cultivation, education (which

is also from Wyith Institute™), and now the first digital asset coin for the indigenous government," added Ruth Ditucci, Director of Wyith Institute™. "We are confident that our team shall be able to provide the most suitable solution to the indigenous government as they adopt this latest blockchain technology through our Institute," she continued.

Dr Raymond Cheng, President and CEO of Wyith Institute™, also commented on this new endeavour. "We are indeed honored to be again trusted by an entire nation's government, i.e. the National Indigenous Government of Mexico, with our capability in bringing them the necessary technology and know-how in the implementation of such a large-scale microfinancing programme through using the BCR@W coin designed by Wyith Institute™. This recognition from GNI is a true, living testimony of both the capability as well as the integrity of the Institute and its services, and is also a highly appreciated act of trust in the related peripheral services Wyith Institute™ provides, including our business intelligence services and our KYT (Know-Your-Transaction), KYC (Know-Your-Customer) programmes. We do see a lot of challenges ahead, but we are both assured and optimistic that our team at Wyith Institute™ will be able to carry out the said programme with utmost care and dedication, building even stronger friendships with our indigenous friends from Mexico."

About the GNI of the United States of Mexico

While Mexico is the 10th most populated country with a population of 126 million (as of 2020), the most populous Spanish-speaking country, and the third-most populous in the Americas after the United States and Brazil, the indigenous Mexican people make up about one-fifth to a quarter (amounting to around 30 million plus) of Mexico's population. Gobernatura Nacional Indígena de México, the Sovereign National Indigenous Government of the United States of Mexico, is the official governorship for the indigenous Mexicans.

About Wyith Institute™

Established in 1992 in Hong Kong, the Institute is a Puerto Rico-based global higher education solutions provider with operations in the Philippines, the UK, Malaysia, and Hong Kong. The Institute collaborates with universities in the region and offers various training for aspiring working adults as well as online study programmes from the bachelor's degree up to the doctoral level. The Institute is also a strong advocate in help funding learners' tuition through using technologies like cryptocurrencies and has its own digital token named Bankcoin Reserve at Wyith (BCR@W), which is based on the digital coin, Bankcoin Reserve (BCR).
