

Exclusive telecom discounts for low-carbon energy companies

Telecom discounter Ethernet CSP is offering a 10% monthly discount on new services for utility companies and vendors in the low-carbon energy space.

KANSAS CITY, MO, USA, February 16, 2021 /EINPresswire.com/ -- [Nationwide telecom discounter Ethernet CSP](#) is pleased to announce the first in a series of exclusive promotions for businesses and non-profits helping to achieve meaningful CO2 reductions. Effective today, Ethernet CSP's [CO2 Reduction Program](#) is offering a 10% discount on new telecom services for utility companies and vendors in the [low-carbon energy](#) space. The ongoing monthly discounts apply to orders of new Internet access, Unified Communications, SD-WAN, remote-site connectivity, and other telecom services throughout North America, offered through Ethernet CSP's 100+ partnering service providers. Organizations developing, operating, or supporting the following next-generation energy technologies are eligible for our exclusive monthly discounts when requesting free service quotes or serviceability checks at <https://ethernetcsp.com/co2>:

- Allam-Fetvedt cycle
- Bioenergy with carbon capture & storage (BECCS)
- Closed-cycle gas turbine (CCGT)
- Direct air capture (DAC)
- Molten salt reactors (MSRs)
- Small modular reactors (SMRs)
- Stable salt reactors (SSRs)
- SMR/ATR with carbon capture & storage ("blue hydrogen")

Ethernet CSP offers wholesale discounts and exclusive, unadvertised pricing on most major telecom providers, including contract buyouts for fiber-based services. If your business is interested in saving money when ordering telecom services, contact us today at <https://ethernetcsp.com>.
