

New Memberships at Prime IV Hydration & Wellness (Lehi, Utah) Will Help you Achieve Your 2021 Health Goals

Memberships at Prime IV Lehi, UT can help with your health goals by ensuring your body continuously achieves optimal levels of hydration, vitamins, & minerals.

LEHI, UTAH, US, February 17, 2021 /EINPresswire.com/ -- If you ask any fit, healthy person in your life how they manage to stay so fit and healthy, the answer is always guaranteed to include an ode to consistency. Why? Because you are the sum of all your habits.

You're not going to get fit after one workout, you're not going to restore a nutrient deficiency after one supplement, nor are you going to heal your chronic migraines after one IV therapy session. Repetition + consistency = long term change.

“

If you're on a mission to improve and revitalize your health and wellbeing, what matters is not what you do occasionally, it is what you do consistently. IV therapy is not exempt from this rule.”

Heidi Neville, Owner

Imagine you have a glass of water. Pour a bit out each time you're overworked, stressed, dehydrated, sleep-deprived, drinking alcohol, eating junk, and being sedentary. Your glass gets empty very quickly. When you add positive healthy habits to your life, you are metaphorically adding water to your cup, to counteract some of the negative, uncontrollable variables of your lifestyle. This is where Prime IV therapy comes in.

You can't wait until you're dehydrated, exhausted, overworked, stressed and feeling like crap and hope that one IV therapy session will make you feel 100% better. It might. But it is significantly more effective when you consistently do IV therapy, to make sure your glass never gets totally empty, because it's way harder to come back from.

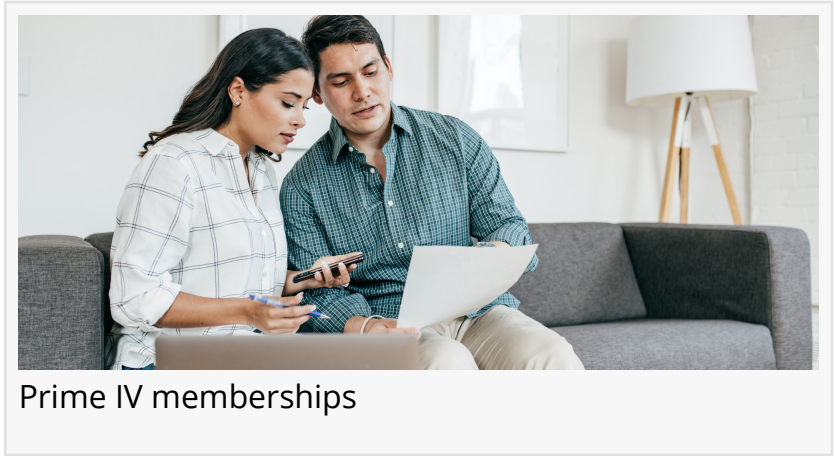

Implementing healthy habits like regular IV therapy, exercise, stress management, drinking

Prime IV Hydration & Wellness - Lehi, Utah

enough water and sleeping 8 hours a night will compound together and transform your health, mental wellbeing, and longevity. You'll feel alive.

If you're not convinced, think of it this way – IV therapy involves pumping intravenous fluids into your veins, delivering a surge of vitamins and fluids to efficiently replenish and deeply hydrate your body at a cellular level. 92 percent of US adults have vitamin deficiency. Vitamin deficiencies are associated with:

Prime IV memberships

- Brain fog
- Low energy
- Poor skin quality
- Dry hair and nails
- Low mood
- Increased susceptibility to illness
- Chronic pain

Amongst others. If you're experiencing a vitamin deficiency, which based on the statistics, you likely are – it's not enough to occasionally get IV therapy. It takes an estimated six to eight weeks to recover from a vitamin deficiency if consistent treatment is received. Doing IV therapy occasionally is not giving your body enough time and resources to achieve full benefits.

The quality of your health is defined by your regular habits. That is why we have created a Prime IV therapy [membership](#), so our clients can enjoy regular treatments, set up seamlessly so you can focus on what matters: optimizing your health and wellbeing. If you're new to Prime IV therapy, here are the benefits of IV treatments:

- Intravenously is the most effective way to absorb vitamins and nutrients.
- You feel better immediately after the session – an effect that is enhanced with consistent treatments. You will likely feel clear-minded, energized, and revitalized.
- It's quick! You can do it on your lunch break or between meetings for a little boost.
- It can be used as part of a treatment plan for many chronic conditions like fatigue, pain, depression, migraines, and others.
- It's a powerful immune booster – no winter sickness around here thanks!
- It's deeply hydrating, working at a cellular level.
- It's customizable based on your symptoms.
- It actually WORKS.

Consistently engaging in healthy behaviors is the most effective way to improve your health, for life. One of the most effective healthy habits is IV therapy, proven to be beneficial for a number of conditions. Our monthly membership for IV therapy allows you to select from a variety of great drips, offering rollovers and discounts to give you the incentive to be more consistent with your health. Prioritize your health and wellbeing, make IV therapy a habit, reap the rewards.

Why Choose a Membership?

A membership at Prime IV makes it easy to stick to your health goals by ensuring your body continuously achieves optimal levels of hydration, vitamins, & minerals. Ensure you experience the highest results possible by consistently bringing your body back to its desired levels. With an abundance of appointment times and rollovers for the months that you miss, a Prime IV Membership is always flexible for your busy lifestyle. Miss an appointment? No worries!
