“

Unsun believes in sun protection. In our efforts to protect the skin, we believe that the more you layer the better the protection. So why not add another layer of GLOW and LUMINOSITY with SPF?”

Katonya B. Breaux

The face sunscreen was designed to create a “no makeup look” radiating sheen with extra protection, or can be applied as a silky second skin SPF for all-over glow. Natural ingredients like evening primrose, green tea leaf extract, lactic acid, and aloe provide an extra hydration boost with soothing and smoothing properties.

“Unsun believes in sun protection. Everyday. In our efforts to protect the skin from sun damage, we believe that the more you layer the better the protection. So why not add another layer of GLOW and LUMINOSITY with SPF? This highlighter provides clean and reef safe sun protection so

bare or made-up faces glow.” said Katonya B. Breaux, Founder & President of Unsun Cosmetics.

UnSun Cosmetics’ dedication to the planet has been taken a step further with new sustainable packaging that uses environmentally conscious materials such as 100% aluminum, glass, and bio-plastic sugarcane tubes which has a
