

ABC Certification Adopts BeVeg Vegan Certification Program in Egypt, Africa, and Gulf Countries

ABC certification body and auditors are trained, competent, and qualified to do HACCP, ISO 22000, FSSC 22000 and BEVEG vegan certification audits.

SALAH SALM, EGYPT, February 18, 2021
/EINPresswire.com/ -- ABC Certification is an authorized representative of the BeVeg International accredited [vegan certification](#) program ("BeVeg") in Egypt, Africa, and Gulf countries. ABC auditors are trained and competent to do vegan certification audits under the BeVeg license. The ABC audit team is composed of qualified HACCP, ISO 22000, FSSC 22000, and BEVEG auditors. BeVeg is an ISO/IEC 17065 accredited certification standard built in accordance with ISO/IEC 17067 as a conformity assessment program.

BEVEG - GLOBAL STANDARD FOR VEGAN CLAIM INTEGRITY & ASSURANCE

BeVeg is the world's leading vegan certification company. As the first -- and only -- accredited vegan certification standard in the world, the BeVeg vegan standard is the benchmark for vegan quality control and assurance, giving you the confidence you need to access new capital markets and establish new business that meets vegan consumer expectations.

BeVeg is globally recognized for its accredited vegan standard. The National Accreditation Center (NAC) accredited BeVeg as an ISO conformity assessment program. ISO is the International Organization for Standardization that publishes international standards. BeVeg demands research, inspection, verification, animal DNA lab analysis, and global supply chain accountability that meets the set out published vegan standard.

Protecting the consumer is the primary goal of BeVeg. "Before BeVeg, vegan claims were made

loosely and with zero accountability, as no defined controls were in place to ensure vegan quality assurance at the factory level. This is a problem for animal-allergen sufferers who may rely on an unreliable vegan claim," says Mohamed Moustafa, Director at ABC Certification.

The BeVeg vegan certification global trademark stands for independent verification of quality and integrity. Products and services that carry the BeVeg [vegan trademark](#) represent

unmatched reliability for meeting the strictest of vegan standards. The BeVeg vegan standard was drafted with consideration of GFSI benchmarks to ensure global food safety and quality measures are assured in BeVeg [certified vegan](#) claims, as many product recalls and known allergens are of animal origin (salmonella, E. Coli, listeria, etc.). In fact, the leading cause of

Mohamed Moustafa, Director at ABC Certification

product recalls is the presence of undeclared allergens, and common known allergens (lactose, shellfish, fish, eggs, milk, dairy) are of animal origin. "Vegan means without animal residue. A certified vegan claim by BeVeg is a claim trusted by consumers, as it is risk assessed at the root level to prevent and reduce the risk of animal contamination, which also protects the manufacturing facilities and brand owners from expensive product recalls," says Moustafa.

The BeVeg vegan standard brings unprecedented awareness, cleanliness, and safety to the market through

factory controls, training, and skilled audits. For more information on how to get your products certified vegan by BeVeg in Egypt, Africa, and the UAE, visit www.ABCcerti.com to discuss with a qualified auditor.

BeVeg is headquartered in North America. ABC Certification is headquartered in Egypt.

ABC is a leading provider of food safety and quality assurance services. BeVeg International (BEVEG) is a leading provider of vegan certification services.
