

Medicom Health and Duet Health Partner to Empower Digital Patient Engagement for Epic-based Health Systems

MINNEAPOLIS, MN, USA, February 18, 2021 /EINPresswire.com/ -- [Medicom Health](#), the trusted leader in [online personal health assessments](#), and Duet Health, whose EHR-integrated direct-to-consumer mobile applications transform care delivery, have announced a partnership to integrate their best-in-class solutions for health systems.

The partnership further enhances health care providers ability to identify, engage, and motivate at-risk

individuals through capable consumer-centric digital health tools. The combined power of Duet Health's powerful, multifunction integrated patient apps and Medicom Health's robust suite of health risk assessments benefits patients and providers alike.

"Our partnership with Duet Health provides patients with the personalized digital health tools that today's consumers want and expect in the age of Amazon and Apple. With the addition of our health assessments, Duet Health's mobile app solution has truly become the single place for both patients and community members to engage around their health." said Corey Maul, Chief Operating Officer at Medicom Health. "The expertise and shared commitment to data-driven digital patient engagement strategies makes this an ideal partnership that will help health care organizations improve the quality of care and reduce costs by guiding the right patient, to the right care resources, at the right time."

"Duet's Enterprise One product provides health systems their own branded, feature rich EMR integrated mobile applications that transforming the patient experience", said Jeff Harper, President and Founder of Duet Health. "Our [Electronic Front Door Apps](#) are now serving more than a million patients and clients trust Duet Health to deliver a unique and seamless mobile experience, so the inclusion of Medicom Health's assessments is a natural fit. We are seeing tremendous increases in the utilization of Medicom's HRAs when they are integrated – this is the
