“

We make every bar on YouTube!”

Cabbage Patch Soap

According to Cabbage Patch Soap spokesperson, “At Cabbage Patch Soap we’re propelled towards providing customers with completely natural solutions for their cleansing needs. Our handmade soaps will get you clean, and provide you with the peace of mind that you are supporting a small business that promises to minimize its environmental impact. Our soaps are made without harsh chemicals or detergents, and we feel they are superior to store-bought products.”

Cabbage Patch Soap prides itself in making cold process soaps that are handcrafted by top

artisans. In this method oils and other ingredients are fused and poured into molds, then cut into bars before curing. The entire process takes about two months, but results in a mild, colorful bar that feels good on the skin. The soaps do not dry out the skin and contain the natural glycerin that is removed from commercially processed soaps. These soaps can be easily used in place of liquid soap, gel shampoo, or even shaving cream and are free of sulfates, preservatives, and petroleum products.

Customers have confidence in our products because they can watch every bar being made on your [YouTube](#) channel.

The natural soap bars are already proving to be popular online with one satisfied customer saying, "I gave this as a gift.. He loves it." Another customer states, "Thank you, I love you designs," and "I love the scent. I can't wait to use it."

Hit their store at www.cabbagepatchsoap.com and discover your new favorite way to clean today!
