Set It up (Lyrics)

We treat black kids like Kaepernick

Don’t care about what their reason is

All we look at what their action is

Then blindly just punish what they did

Defiance is the main reason for suspension

For black kids in education system

Are the rules made for the children

or for teachers to control ambition?

Schools are funded by property tax

Where are the wealthy properties at?

Ruby Bridges only 65

Segregation is still intact

Following the civil unrest after the George Floyd murder and the worldwide Black Lives Matter Movement, Griot B decided that he would expand his music through education to teach every American adult, especially white Americans about the roots to this tree of racism Black Americans were protesting.

"My pregnant wife didn't want me to protest anymore, but I decided I would play my part by creating something new and different from my past projects."

Griot B found success by using hip-hop in his classroom to increase students' achievement.

He continues "The conversation about race is happening in classrooms, board rooms and dining rooms across this country. This album gives listeners facts and truths in an educational, but also entertaining way, in hopes of initiating these important conversations with more knowledge, empathy and understanding." The Discography for RACISM tackles violence, history, slavery, inequality, politics and even "Karens."
