“

Project Management Specialists and similar business operations positions will continue to see job growth, according to the US Bureau of Labor Statistics,”

-Carrie Cameron, CEO of ITU Online

professionals who are pursuing their [Project Management Professional \(PMP®\)](#) certification are starting at a very opportune time. The PMBOK® 6th Edition examination was updated January 2nd, 2021 and now includes key factors that [Project Managers](#) will rely on for daily functions.

“Project Management Specialists and similar business operations positions will continue to see job growth, according to the US Bureau of Labor Statistics,” says Carrie Cameron, CEO of ITU Online. “Project Managers make anywhere from \$57K to \$158K annually, so the training leads to a very rewarding career.”

ITU Online Training's Project Management Professional (PMP) 6th Edition PMBOK® course fulfills one of the basic requirements from the Project Management Institute (PMI) just to be able to sit for the exam. The new 21 hour+ course is instructed by Pete Matassa, President of Techknowledgy. Matassa holds an M.B.A., over two decades of relevant experience, holds various CompTIA certifications, the PMP®, the PMI-ACP® (Agile Certified Practitioner), and the Agile Hybrid Project Pro Micro-Credential.

“This is the gold standard for Project Managers,” Matassa states in an interview between course filming. “I’m not being facetious when I say a PMP is to Project Management like a CPA is to Accounting, or like a PE is to Engineering.”

With Agile, hybrid methodologies, iterative project life cycles, and the predictive life cycle becoming more important than ever to Project Managers, it is highly recommended that this new edition of PMBOK® be taken by anyone who requires a PMP certification for their job title. As always, the PMP certification is accredited towards the internationally recognized ISO 17024

standard.

PMP certifications are valid for three years, and Matassa shared with ITU Online Training that these updates are quite substantial. "I've been doing PMP prep for over 15 years, starting with Edition 3, but this 6th Edition update has required a complete content overhaul with my teaching materials due to the changes."
